Nur Arisya binti Mohd Yasak	1221303288	TT4L
Nur Ayu Farisha binti Hamdan @ Hood	1211101924	TT4L
Wong Wai Yee	1221303660	TT4L

Assignment Topic: MMU Talent Showcase Portal

1.0 Introduction

We will be developing the MMU Talent Showcase Portal, a web-based platform designed to promote the diverse talents of MMU students to the public. It is a platform for students to showcase themselves and gain opportunities. This platform serves as a digital space for students to showcase their skill and abilities such as demo reels, projects, music and more. The platform will display a wide range of talents from various professions, including music, technology, writing, art and photography.

The main page will be displayed for the users including talents and customers to access the features such as talent catalogue via search and filter engine, announcement, a communication hub for support and interaction among the talents and registered users, and FAQs section.

Additionally, both the talents and customers will be able to edit their profile information on the profile settings. Moreover, both of them are able to give feedback and lodge a report as well.

2.0 Executive Summary

The intention of this web app is to connect students with potential collaborators or clients by showcasing their creative and technical talents while providing a platform that allows seamless interaction between the customers and talents. There will be three users of this web app such as admin, talent and customer. Below is the outline of each user:

| User	Admin	Talent	Customer
Functions	• Manage user accounts like	• Create and manage	• Browse talent profiles and filter by genre.

	customers and talents. • Create and manage announcements and events. • View, edit, and delete talent profiles. • Manage FAQ responses.	personal profiles. • Browse other talent profiles. • Post and upload their CV, demo reels, or project files. • Communicate with users including customers via community & support section. • Submit feedback or reports about talents. • View digital gallery about history and achievements of the MMU students.	• Submit feedback or reports about talents. • Manage personal profile. • Communicate with users including talents via community & support section. • View digital gallery about history and achievements of the MMU students.

3.0 Solution Outline

3.1 Site Structure

The figure below shows the site map of the MMU Talent Showcase Portal.

3.2 Site Integrations

The table shows the PHP page for both talents and customers.

PHP pages For members		Descriptions	By
a.	Homepage *index.php*	• This page will be the main page for users to browse the catalogue such as talents, genre of music, announcement or news.	Alysha, Wai Yee
b.	New User *registration.php*	• This page is for newcomers to register their profile such that they need to fill in their details	Ayu, Arisya
c.	Existing User *login.php*	• This page is for existing users to log in to their profile with their existing credentials.	Ayu, Arisya
d.	Talent Profile *talentProfile.php*	• This page is for the registered talents to view or update their profile for maintenance purposes.	Arisya
e.	Customers Profile custProfile.php	• This page is for the registered guests to update their profile details.	Alysha
f.	Feedback & FAQ Section *faq.php*	• This page is for viewing the Frequent Asked Question (FAQ) and a page for submitting feedback or report. The admin will be the only one accessing this and responding to it.	Alysha
g.	Users Login Verification *dblogin.php*	• This page will authorize the user login if it matches with the database records.	Ayu, Arisya
h.	Gallery History & Achievement *gallery.php*	• This page will show media and achievement from previous success, including photos, videos, and highlights of key activities. The history of this platform will also be showcased on this page.	Wai Yee
i.	Talent *talent.php*	• This page is for users to view and search for talents from this platform. All talents will be filtered by their own professions. Users can also view a short detail of talent from their portfolio.	Wai Yee

j.	Media Posting *media.php*	• This page is connected to *talent.php* where this will be the addition features for talent to post their contents and updates.	Alysha
k.	Community & Support *community.php*	• This page is for the users both talent and customers to interact through forums. Such that, users can comment and even have a special request for future events or bookings.	Wai Yee
l	About Us *About.php*	• This page works as a medium for users to contact or find further information through contact details given on this page.	Wai Yee

The table shows the PHP page for the admin.

PHP pages For Admin		*Descriptions*	*By*
a.	Homepage *index.php*	• This page will be the main page for users to browse the catalogue such as talents, genre of music, announcement or news.	Alysha, Wai Yee
b.	Communication Features for News & Announcement *announcement.php*	• This page allows admin to create new announcements and posts updates on upcoming talent events or workshops. • Admin will have a feature to upload files or photos.	Ayu
c.	FAQ Section *getFaq.php*	• This page will allow admin to answer queries from members regarding enquiries, feedback and reports. • Admin will be able to add, edit or remove the feedback.	Arisya
